Summary

I am a MCA candidate at Christ University with a strong background in Python and AI/ML. With proven skills in software development, problem-solving, and project management, I thrive in collaborative environments and excel in leadership. I am passionate about leveraging my technical and analytical expertise to achieve impactful results in innovative projects

Skills

Programming Language: Python, C, C++

Frameworks & Libraries: TensorFlow, Keras, PyTorch, scikit-learn, OpenCV, Django, LangChain, ChromaDB, Ollama

Tools & Platforms: GitHub, Google Colab, Jupyter, VS Code, PyCharm, Unreal Engine

UI/UX Design: Figma

Concepts: Deep Learning, Machine Learning, Data Visualization, Computer Vision

Professional Experience

Jobiffi Pvt. Ltd (Bista Technologies)
Full Stack AI/ML Intern

January 2026 – April 2026 | Noida, UP

Architected and developed an end-to-end AI Mock Interviewer platform, integrating generative AI models with a responsive web interface to simulate real-time technical interviews.

University of Sevilla, Spain
Machine Learning Research Intern

May 2025 – August 2025 | Sevilla, Spain

Internship focused on machine learning and retinal disease diagnostics.

Developed and deployed a dual-model retinal disease diagnostic system (BioNet + PathoNet), improving classification accuracy by 12% compared to single-model baselines.

Projects

Referee Intelligence HUD | Generative AI & RAG

April 2026

Architected a Domain-Specific RAG System using LangChain and ChromaDB to provide real-time rule clarifications based on official 2024-25 NBA/FIBA rulebooks.

AI Powered Mock Interviewer

January 2026 – April 2026

Engineered an end-to-end web platform that simulates technical interviews, integrating LLMs via API for dynamic, context-specific question generation.

PDR Detection Using Meta-Learning

May 2025 – August 2025

Designed and implemented a dual-model retinal disease diagnostic framework using BioNet, PathoNet, and ProtoNet integrated with Explainable AI (XAI) techniques to enhance medical image classification and model interpretability

Smart Helmet Using IOT

August 2025 – September 2025

Developed an IoT-based smart helmet with helmet-wear detection, alcohol sensing, and crash detection, integrating sensors and microcontroller logic to enable automated ignition control and emergency alerts.

Driver Drowsiness & Distraction Detection System

November 2025

Developed a real-time driver monitoring system using Python, OpenCV, and MediaPipe to detect drowsiness, distraction, and mobile phone usage. The system uses EAR and MAR-based facial landmark analysis along with hand tracking to generate real-time alerts aimed at reducing accident risk and improving road safety.

GAMESCORED (Website)

November 2024 – January 2025

A website aimed at fostering a community for gamers

Furniture App Prototype

November 2025

Made fully functional prototype of your Mobile Furniture Information System designed in **Figma**

Certificates

TWO DAY TECHNICAL WORKSHOP ON AR/VR (02/2025) – Workshop focused on technical skills in augmented reality and virtual reality

INTEL UNNATI ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING COURSE – Course focused on the principles of artificial intelligence and machine learning

AWS Academy Graduate- 2025 –

Research/Publication

Deep Learning-Based Alzheimer's Disease Detection Using ResNet18 and Grad-CAM

Present

Research on Deep Learning Techniques for Classification of Severity of Alzheimer's Disease. Submitted in conference.

Brain Tumor Detection using Deep Learning with Explainable AI

March 2025 – Present

Currently working on research that focuses on the applications of deep learning techniques for brain tumor classification using MRI images along with Explainable AI.

Meta Learning in Diabetic Retinopathy

May 2025 – August 2025

Working on the research paper on Diabetic retinopathy using meta-learning. Paper Undergoing Review.

Education

Master of Computer Application *Christ University*

Present | Delhi NCR

Bachelor of Science *Mohan Lal Sukhadia University*

July 2020 – July 2023 | Udaipur, Rajasthan

Leadership & Extracurriculars

Team Captain, Varsity Basketball | Christ University Delhi NCR – Led the team to win **2 Gold Medals** at the Chripo Tournament

Varsity Athlete, Basketball | MLSU Udaipur – Competed in the **All India University Games** and secured a **Bronze Medal** at the **West Zone Intervarsity tournament**.

Videographer & Editor | University Branding & Media Club – Collaborated within a creative team to capture and edit video content for university-wide digital outreach campaigns.
